

# GRAVIX WAKEFOIL

QUICKSTART

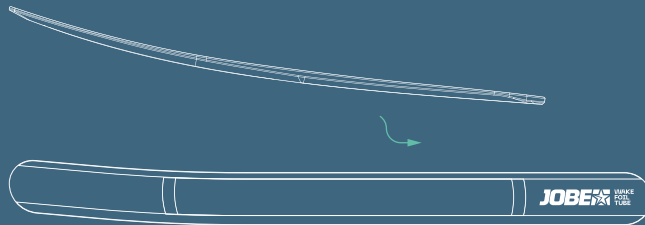

**JOBE** 

# ASSEMBLY

## STEP 1 - INSTALL THE INFLATABLE TUBE

- Inflate the tube to only 10% and close the valve.
- Slide the board into the tube.
- Make sure the board is fully seated inside the inflatable.
- Inflate the tube to a pressure of 15 PSI max.

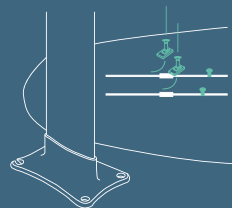

## STEP 2 - INSTALL THE TOP PLATE & MAST

- Attach the mast to the top plate.
- Insert the T-nuts in the twin tracks of the board.
- Loosely screw the 20mm bolts into the T-nuts.
- Attach the assembled mast & top plate to the board by sliding the bolts into the notches.
- Adjust to your preferred position.
- Tighten all bolts securely.

### STEP 3 - INSTALL THE WINGS & FUSELAGE

- Attach the front wing to the front of the fuselage with the 14mm bolts.
- Attach the stabilizer wing to the back of the fuselage with the 15mm bolts.
- Tighten all bolts securely.

#### STEP 4 - COMPLETE THE SET-UP

- Attach the wing set-up to the mast by putting the mast into the fuselage.
- Insert the 25mm bolts.
- Tighten all bolts securely.

# RIDING INSTRUCTIONS

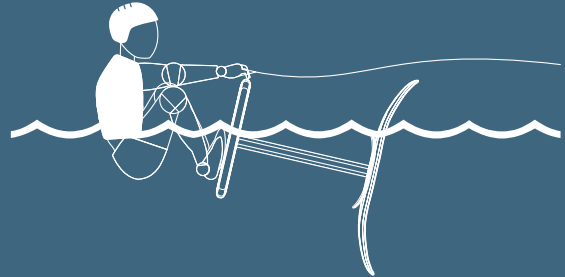

## BEGINNER START

1. Lie prone, head over tube, legs over edge.
2. Hold the handle, keep your weight centered.
3. Move to a kneeling position (boat speed ~6 km/h).
4. Stand up to a surf stance, control with front foot.
5. Sign to the boat driver to speed up when you're comfortable (boat speed ~10 km/h).
6. Feel the lift out of the water and try to stay balanced.

## ADVANCED START

1. Lie parallel, place your feet on the board with your knees bent.
2. Keep your arms straight while holding the handle and the board simultaneously.
3. Keep your body small and let the boat pull you out of the water at low speed (~6 km/h), let loose of the board.
4. Find your balance and control with front foot.
5. Sign to the boat driver to speed up to feel the lift.
6. Steer to the wake of the boat and let go of the rope when you're comfortably surfing the wake.

# WARNINGS

**Warning:** Keep away from children.

**Warning:** Fall away from board and foil.

**Warning:** Wear a life jacket, helmet, and wetsuit.

**Warning:** Avoid swimmers, shallow water, docks, or obstacles.

**Warning:** Use only in water with minimum depth of 1.2m (47”).

**Warning:** Do not wrap the rope around any body part. Use the handle only.

**Warning:** Keep clear of propellers and engine exhaust.

**Warning:** Tighten all bolts before every use.
